## work experience

- Canned Banners** *Co-Founder* [cannedbanners.com](http://cannedbanners.com)  
San Francisco CA Aug 2010–Present  
Co-founded a do-it-yourself online banner ad creation tool. Designed the look and feel for the entire site and developed all of the Actionscript to make it work. Designed and built nearly all of the banner ad templates used on the site. Also designed various marketing materials such as e-mail newsletters.
- Venables Bell** *Interactive Designer/Developer* [venablesbell.com](http://venablesbell.com)  
San Francisco CA Jan 2007–Jul 2010  
Developed banner ads and websites for award-winning advertising agency. Clients included **Orville Redenbacher**, **HBO**, and **PG&E**. Consulted creative teams on technical issues, prepared storyboards, animations, and assisted with conceiving. Brought banner ad production in line with industry best practices. Improved overall agency efficiency with a variety of internal web-based projects.
- Pixel Bridge, Inc** *Senior Interactive Designer* [pixelbridge.com](http://pixelbridge.com)  
Boston MA Aug 2004–Oct 2006  
**Design**  
Designed websites, interactive advertising, email marketing, and offline material from concept to completion. Worked directly with clients to meet project goals. Digitally photographed people and products for use on clients' websites.  
**Development**  
Used standards-compliant **CSS**, **HTML** and **PHP** to build out dynamic websites according to design specification. Coded in **ActionScript** to add additional functionality to large-scale **Flash** applications, including **Flash video** players.
- Freelancing**  
Handled all elements of the design process including: client acquisition, design & build, project management, billing, and promotion. See [jeremy-knight.com](http://jeremy-knight.com) for examples.
